I might be willing to help but there's a lot of background work that goes  
into any deal I've been doing it for 40 years your side must have some  
money on the line take me time and effort just to ask you all the questions  
then I have to have a business plan that makes sense I have to know what  
percentage of cash you have and what a percentage of cash you can raise  
I have to know if you have a bank that can accept and stand by letter of  
credit from a major Bank in London lots of questions and I can just give  
you a sample of what has to be done.. just because it's a good project  
how can we get our money back

[10:18, 26/9/2023] RODNEY KINCAID Italia SOCIO BOB OHIO EEUU:  
Yes we can take that in and directly to the government in several places  
that we have to sign a contract with you first and also get a black screen  
or proof of funds issued in advance then we can have the meeting

I'm in Rome Italy I'm in Rome Italy places we will go we want our or less

We have to offer 40% to the ministry 45% from the sender 5% to you and  
all your people and 10% for me and all my people that's agreeable I can  
discuss it with my partners

Centers credentials passport and CIS..... And that means the real sender  
and how the money was made

The government's I work with don't want to be caught in a scandal

[10:40, 26/9/2023] Martin P. 🦁 LEON O'FARRELL: 🖋️

[26/9, 10:45] Bob Foraker Ben Abbo Banker: I want to lodge these Funds into a new digital central bank for the newly recognized Kingdom of Kush for Africa for humanitarian projects of the new kingdom and the interplay between other countries of Africa as well as East and west. I am the Financial Ethics Director for the Kingdom of Kush for its digital assets and assurance of ethical practices. The Central Bank would be a public private bank and a partner in it .--

**The new prime minister has been appointed and I will be talking with the chairman to move this forward.**

We can work with that. I need to go to the World Trade Center in Ny to meet with the Kingdom of Kush chairman and others and I am planning to bring my Digital Investment Banker to meet them as well we could schedule this at the same time. I must do this before going to Greece to meet the Prime Minister and Agriculture minister. We can talk on the phone or a zoom call. Who discuss all of this every deal is different

We write to introduce your government/country a humanitarian funding program that we believe will assist your Government's ability to catapult your country into a debt free country and at the same time raise the quality of life for its citizens – every citizen.

The program is for humanitarian and national development projects, and they are very easy to apply for or access.

Any project that help advance the quality of life in the country - infrastructure, agriculture, education and health, job creation, economic expansion, housing development, transportation, industrial development and more.

There is no application. Simply approach the official responsible - The Minister of Finance, Prime Minister or President and discuss with him or her. If he/she is interested send me his name, title and address (official) so the information will be addressed to him or her and sent to you for him/her.

I can only link u if there is serious interest - Stewart & Martin.—
